

Bringing better solutions to light in the cement and mining industries

While the world demands infrastructure and improved standards of living, scarcity of resources make it complex to keep up. Our commitment is to help our customers find the best way to stay ahead.

For more than 135 years, we have challenged conventions and explored opportunities. Across more than 50 countries, we are 12,000 employees who combine our unique process knowledge on projects, products and services to drive success. We share our customers' ambition, help them see their world from different angles and bring better solutions to light. By doing so, we contribute to the

sustainable development of societies with the lowest possible environmental impact.

We are the market-leading supplier of engineering, equipment and service solutions to customers in the global cement and mining industries.
