

Trane® Products within the EcoWise™ Portfolio

Efficiency, sustainability and compliance for today and tomorrow

Scan the code or visit
Trane.com/EcoWise
to learn more.

- **Energy efficiency**

High full-load performance to lower energy demand and high part-load performance to reduce energy consumption

- **Environmental sustainability**

Next-generation, low global warming potential (GWP) refrigerants and highly efficient operation to minimize greenhouse gas (GHG) emissions

- **Reliability**

Simple, yet robust designs enable Trane products to last longer than others

- **Safety**

Refrigerants with low flammability characteristics plus innovative designs that lower the refrigerant charge and reduce the potential for leakage

- **Compliance**

Meets all current and proposed refrigerant-related regulations

EcoWise™

The Ingersoll Rand EcoWise™ portfolio of products designed to lower environmental impact with next-generation, low global warming potential (GWP) refrigerants and high-efficiency operation is part of our climate commitment to increase energy efficiency and reduce the greenhouse gas emissions (GHG) related to our operations and products.

Trane® CenTraVac™ chillers

Trane® Sintesis™ chillers
