VRF IV^{PLUS} **100% INVERTER**

**100% capacity at 43°C.
Non-stop cooling even at 56°C.**

Blue Star VRF IV Plus delivers 100% performance at 43°C and continues to cool non-stop even at 56°C. It's a 100% inverter VRF with an IPLV measure of 7, so it gives you the best energy efficiency and savings. Its operating voltage, 320V to 460V, is wider than that of any other VRF. In other words, the Blue Star VRF IV Plus is superior in every way.
