

Our Solutions

WIND

SOLAR

Resource Assessment

- Meteorological Tower Siting & Configuration
- Meteorological Tower Verification
- Wind Resource Summary Report
- Solar Resource Mapping
- Site Screening
- Solar Resource Monitoring Programs
- Long Term Resource Assessments
- Monthly Resource Monitoring Programs

Energy Assessment

- Preliminary Layout and Energy Assessment
- Energy Production Estimate
- Windographer
- Preliminary Layout Design & Energy Assessment
- Feasibility Studies
- Energy Production Reports

Technology Assessment

- Turbine Selection
- Turbine Technology Review
- Power Performance Testing
- Technology Evaluation
- Technical Reviews

Investment and Finance

- Energy Yield Reporting
- Independent Review
- Detailed Project Report
- Technical Due Diligence
- Solar Portfolio Evaluation
- Third Party Independent Reviews
- Economic Feasibility Studies
- Detailed Project Report
- Technical Due Diligence

Public Planning and Policy

- Grid Integration Studies
- Grid Integration Studies

Plant Performance

- Operational Energy Production Reporting
- Wind Performance Management Dashboard
- Operational Energy Production Reports
- Energy Variance Assessments

Energy Forecasting

- Advanced Wind Forecasting Service
- Advanced Solar Forecasting Service

Our Products

WIND SITE ASSESSMENT DASHBOARD

- Explore resource characteristics, Project opportunities and energy potential
- Visit our website : <https://dashboards.awstruepower.com/subscriptions/wind-site-assessment>

WIND DATA MANAGEMENT DASHBOARD

- Manage all your meteorological towers in one easy dashboard.
- Visit our website : <https://dashboards.awstruepower.com/subscriptions/wind data management>

OPENWIND[®] ENTERPRISE

- The most advanced wind project design and optimization software providing wind developers with a highly configurable suite of tools.
- Visit our website : <https://awstruepower.org>

WINDOGRAPHER

- Windographer is the industry leading software for analyzing wind resource data measured by met tower, SoDAR or LiDAR.
- Visit our website: <http://software.awstruepower.com/>
