

Windar Renewable, a world leader in manufacturing wind towers for both onshore and offshore, has set up its tower manufacturing factory in Vadodara, Gujarat. It is the first 100% multinational wind tower manufacturing company in India.

The tower factory is built on area of 15,000 sq.mtr. on 35 acres of land. With an investment of Rs. 1,500 Mn, the factory has a team of 350 people to produce 450 towers of 2 MW each annually. Windar Renewable will use its World Class technological expertise coupled with its World Class manufacturing facility towards fabricating tubular towers to cater the markets in India and abroad.

We supply towers to all most all leading turbine manufacturers.
