

**VOLVO**

# *Together we* **MOVE** *the world*

Our trucks, buses, engines, construction equipment and our financial services are involved in many functions that most of us rely upon every day. And, whenever you see a Volvo product, you can be sure it is doing more with less, setting new standards of performance in a manner that is safer, friendlier and with care for environment.

The Volvo Group is closely aligned with India's key growth priorities with focus on Urbanization, Infrastructure & Skill development, while making transportation safer & sustainable. Furthermore, the Indian operations, with over 3,000 talented professionals, provides a range of services including product development and process support, for the global organization.

At the Volvo Group, we are constantly seeking to create shared value together with our customers, employees, business partners, drivers, operators, our customer's customers, the communities we live with, and everyone engaged with us. Working with energy, passion & respect for the individual.

We are united by a single vision – to become the **world leader in sustainable transport solutions.**

## **Strong Brands**

The Volvo Group does business under several leading and respected brands, each aiming to meet the needs of customers in specific target markets and segments.
